## Harris County Elections Reporting Update

HOUSTON, TX) - As we continue to run through the numerous checks and balances of the tallying process, we identified approximately 10,000 mail-in ballots (6,000 Democratic and 4,000 Republican) that were not added into the original Election Night count. The oversight occurred between the hours of 1 and 4 a.m. as the political parties that make up the Central Count Committee were reviewing ballots.

While the votes were scanned into our tabulation computer, they were not transferred and counted as a part of the unofficial final results as they should have been. These votes will be added to the final count when the Central Count Committee next convenes on Tuesday.

We have reached out to and are working in coordination with the Secretary of State's Office as we investigate the missteps that took place in this process. We are committed to full transparency and will continue to provide updates as they are available.

While we understand the seriousness of this error, the ability to identify and correct this issue is a result of a lengthy, rigorous process and is a positive example of the process ultimately working as it should.
